

SCO15017Q0001 – AMENDMENT A001Continuation to SF-30, Block 14:

As a result of amendment A001, the following changes are made to the solicitation. To the extent possible changes are included in red font.

1. Section 1 – Schedule, Item 5.4 (Bonding) is changed to read:

The contractor shall provide bonding as per the Attachment 1- Specifications for work performed under this scope of work. **The price for bonding, if required, will be negotiated and priced prior to issuance of task orders under this contract.**

2. Section 1 – Schedule, Item 5.5.2 (Administration and Management) is changed to read:

The contractor shall provide a contact telephone number in Colombia that will be available 24 hours a day to receive service calls regarding the event on the systems, the contractor will diagnose and inspect on site within 24 hours and provide within 36 hours of the service call a diagnostics report that includes:

- Diagnostics procedures.
- Photos test and other information gathered during the diagnostics.
- List of required items based on the bid chart required to perform the corrective maintenance.

The response time may be extended by the COR for up to 48 hours in cases where access to the site is difficult.

The government will review the report and may request a revision of the items required; once approved by the government the contractor will mobilize within 24 hours and perform the approved works, once completed a report will be provided to the government closing the service call, the report shall include the following:

- Tasks Performed.
- Tests performed to insure proper performance of the system.
- List of materials and equipment used for the maintenance.
- Photos, test and other data.

The contractor shall provide the same testing procedures of repaired portions of the system as those required for the original system in the specifications and drawings.
